Notes

Note 1 - Basis of presentation

The consolidated interim financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in US dollars, have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These statements reflect all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for fair presentation of the information contained therein. It is suggested that these consolidated interim financial statements be read in conjunction with the consolidated financial statements of the Company for the period ended December 31, 2001 and notes thereto included in the Company's Form 10-KSB. The Company follows the same accounting policies in the preparation of consolidated interim reports.

Results of operations for the interim periods are not indicative of annual results.

Note 2 - Going concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. As noted above, the Company is in the development stage and, accordingly, has not yet generated a proven history of operations. Since its inception, the Company has been engaged substantially in financing activities and developing its product line, incurring substantial costs and expenses. As a result, the Company incurred accumulated net losses from July 6, 2000 (inception) through the period ended June 30, 2002 of \$(1,009,108). In addition, the Company's development activities since inception have been financially sustained by capital contributions.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock and, ultimately, the achievement of significant operating results. The accompanying financial statements do not include any adjustments that might be required should the Company be unable to recover the value of its assets or satisfy its liabilities.

Forward-Looking Statements

This Quarterly Report contains forward-looking statements about our business, financial condition and prospects that reflect our assumptions and beliefs based on information currently available. We can give no assurance that the expectations indicated by such forward-looking statements will be realized. If any of our assumptions should prove incorrect, or if any of the risks and uncertainties underlying such expectations should materialize, our actual results may differ materially from those indicated by the forward-looking statements.

The key factors that are not within our control and that may have a direct bearing on operating results include, but are not limited to, acceptance of our services, our ability to expand our customer base, our ability to raise capital in the future, the retention of key employees and changes in the regulation of our industry. There may be other risks and circumstances that we are unable to predict. When used in this Quarterly Report, words such as, "believes," "expects," "intends," "plans," "anticipates," "estimates" and similar expressions are intended to identify forward-looking statements, although there may be certain forward-looking statements not accompanied by such expressions. All forward-looking statements are intended to be covered by the safe harbor created by Section 21E of the Securities Exchange Act of 1934.

General

We were formed as a Nevada corporation under the name ATR Search Corporation ("ATR") on March 2, 2001. On June 28, 2002 we filed a report on Form 8-K with the Securities and Exchange Commission, incorporated herein by reference, whereby Medicius, Inc. ("Medicius"), a Nevada corporation, merged with and into ATR. Pursuant to the terms of the merger agreement, ATR obtained the operations of Medicius.

We adopted Medicius' business model, which is to provide enhanced information technology (IT) to physicians at the point of clinical decision because we believe that the growth of the e-healthcare industry will far outpace that of our previous business model, which was to provide IT technology professionals to businesses on a part-time or full-time basis. With the demise of many .com companies over the past few years the market has become saturated with unemployed IT professionals. It is the opinion of management that this will act to drive down the fees we can obtain from the placement of these professionals and reduce the number of companies desirous of engaging our services. On the other hand, the Medicius software systems, communication tools and suite of software applications obtained through our merger, permits a physician to request critical patient medical and/or medication information via the Web on a Microsoft Windows CE-based PDA at, or prior to the point-of-care.

The system captures and displays the requested information, and overlays formulaic medical treatment protocols and medical step therapies, creating not only a patient specific historical medical chart, but also suggested treatment alternatives, approved medications and diagnosis specific protocols. Utilization of this system by the practicing physician enhances clinical decision-making, improves physician productivity,

insures formulary compliance, reduces the cost of healthcare and positively impacts the care provided to the patient.

On August 2, 2002 we filed amended articles of incorporation with the state of Nevada (see exhibit 3.1c, previously filed with the Commission) to change the name of our company to CareDecision Corporation and increase our number of authorized common shares to 200,000,000.

/10/

Results of Operations

We generated \$1,055 in revenues for the six-month period ended June 30, 2002. Our future revenues will be reliant on the acceptance of our software systems, communication tools and suite of software applications.

Total operating expenses for the six months ended June 30, 2002 were \$593,688 and \$1,002,879 since inception. Total operating expenses for the six-month period ended June 30, 2002 and since inception were entirely related to general and administrative expenses, consulting fees, depreciation and amortization, and organizational costs.

Future Business

The elements of our future business strategy include: expanding geographically into key markets through a combination of opening new offices and developing relationships with clients to generate demand for our services; recruiting qualified, medical software and other technical personnel to perform technical, implementation and support duties as contracts are entered into, although there can be no assurance that any such contracts will be secured; and pursuing entry into new markets complementary to our proposed operations. Future operations are dependent upon our ability to implement our business and marketing strategies and to establish relationships and contracts with health insurers and HMOs to provide our e-healthcare products and services.

Liquidity and Capital Resources

We believe our cash on hand of \$303,599 will be sufficient to fund ongoing fiscal 2002 and 2003 operations and provide for our working capital needs, however, we have negative working capital of \$249,074. Our accountant has issued a note concerning our ability to continue as a going concern. As we are still considered to be in the development stage, our prospects of continuing as a going concern are contingent upon our ability to achieve and maintain profitable operations. Revenues generated over and above expenses will be used for further development of our services, to provide financing for marketing and promotion, to secure additional customers, equipment and personnel, and for other working capital purposes.

To date, we have financed our cash flow requirements through a public issuance of common stock and through the issuance of notes. During our normal course of business, we will experience net negative cash flows from operations, pending receipt of revenues. Further, we may be required to obtain financing to fund operations through additional common stock offerings and bank borrowings, to the extent available, or to obtain additional

financing to the extent necessary to augment our available working capital.

All investor inquiries should be directed via mail to Mr. Robert Cox, President, CareDecision Corp. 2 Penn Plaza, 15th Floor, Suite 1500-53, New York, New York 10121.
